

6th December 2021

Dear Parents

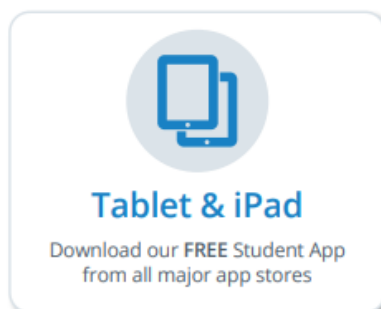

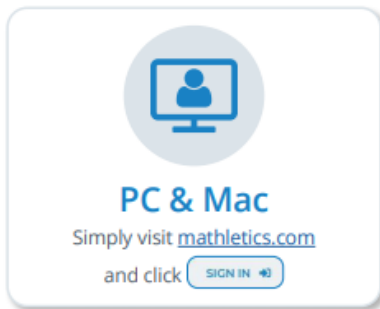

We hope your children are enjoying using Mathletics at home to support their Maths learning. It continues to be important that children can access this resource at home.

Mathletics is a targeted, rewarding and captivating online learning resource, which is aligned to curriculum standards. **The extra Mathletics practise at home can make all the difference to your child's progress.** Encourage them to achieve a weekly target of 1000 points to earn a certificate, building through bronze, silver and gold across the school year.

Sign into www.mathletics.com with your child to start exploring.

To assist you in keeping your child on track we have included the following support documents:

- 1 Student Console Map
- 2 Top 10 tips on using Mathletics at home
- 3 Rewards and Recognition

As in previous years we are hoping you will continue to support the purchase of Mathletics by donating towards the cost per child. If you are able to help the school continue to offer this resource please make your £5 donation via parent pay in your parent mail app.

I have also included a poster reminding you how the Mathletics reward system works.

If you are experiencing any technical issues with the use of Mathletics at home the following link may be useful.

<https://www.3plearning.com/tech/mathletics/>

Thank you in advance for your continued support

Mrs Green (Mathematics lead)

Top 10 Tips for using Mathletics to support your child's learning at home.

Mathletics

- 1** Make sure you have your child's Mathletics username and password.

- 2** Mathletics can be accessed on PC / Mac, iOS and Android devices as well as Windows tablets and Chromebooks. For use on iPads, Mathletics can be accessed through Safari, or downloaded as a free app.

- 3** Your child's teacher has set them up with the correct curriculum content allowing your child the ability to explore independently, as well as completing any assigned work.

- 4** Encourage your child to achieve a weekly certificate, by earning 1000 points or more. You can only achieve 1 certificate each week.

- 5** Mathletics uses a traffic lighting system to show children's achievement in each activity. Activities completed with a score of 85% or more will show green Your child can see which activities they need to practice a little more by looking for any with an orange indicator - meaning they scored 50-84%. Activities in red, they will need some extra help with.

- 6** If a teacher has assigned an activity for your child to complete, they will be locked out of all the other areas and will need to complete this first. Check the Explore area for any Problem Solving & Reasoning assignments. When your child has completed the problem-solving activity, it will show a blue tick next to it.

- 7** If your child finds a question difficult, remind them that there is a button at the top right hand side of each question and clicking on this will open up some support to help them.

- 8** Mathletics is full of great additional activities that make learning Mathematics fun. In the Play area, children will enjoy Live Mathletics, Multiverse, Rainforest Maths and Playpaws.

- 9** Practicing mathematics offline is important too! You and your child have access to printable worksheets right in their student console.

- 10** Celebrate achievements and effort

Certificates - On the right-hand side, under your child's avatar you can click to view and print certificates

Hall of Fame - On the right-hand side, under your child's avatar you can click into the Hall of Fame.

Are you a super Mathlete?
