

Mini Mash

Mini Mash is a simple computer programme your child can use at home. It has some fun educational based games that the children should be able to use with only a little direction and support from adults.

Please find below a list of the basic activities your child can explore at their own pace.

For the moment please don't worry about the trays or saving their work, it's a time to explore!

 <p>2simplecity</p>	<p>Here you have scenes the children can design themselves. For example a vet surgery or a cafe. There a short informative video clips the children can watch about each role play.</p>
 <p>Reading and writing</p>	<p>Here there are a variety of activities to help your child read and spell.</p>
 <p>Numbers and Counting</p>	<p>Here you can find a selection of maths number and counting activities. There are lots to explore!</p>
 <p>Games</p>	<p>Here you will find a variety of basic games such as 'pair's and jigsaws your child will be able to play on their own.</p>
 <p>Drawing</p>	<p>Here your child can colour in simple templates using simple tools. This will help develop your child's mouse control. You could even print off the picture for your child and they could write a sentence to match the picture.</p>
 <p>Role-play</p>	<p>Here your child can become their own character, adding a photo of themselves and even write a speech bubble for their new character.</p>

Drawing and Painting

Here your child can explore 2 paint a picture and paint projects to create their own work of art using a range of painting skills.

Music

Here your child can use a range of instruments to create their own musical pattern/song.
